Thumb Turn Locks shall not be allowed.

Addition

This text is being proposed to be added to the 2018 International Code for adoption by local municipalities.

Provide your new proposed code to be added to the existing code as cited above. *

Justification for Proposal

Provide reason to support your proposal based on the safety impact, enfforceability, cost effectiveness, or unique location conditions

Justification *

The text in the published IFC makes clear that "tight grasping, tight pinching, or twisting of the wrist to operate" is not permitted for door hardware. This is the exact same language contained in ICC A117.1-2009 Section 309.4. There are instances in the Code when providing an example of non-compliant hardware is necessary to clarify a grey area. This is not a grey area and therefore the previous amendment is not needed and should be removed.

The same proposal will be submitted for the IBC.
