Addition

This text is being proposed to be added to the 2018 International Code for adoption by local municipalities.

Provide your new proposed code to be added to the existing code as cited above. *

D106.4 Public Streets.
Where two fire apparatus access roads are required, they both shall be public streets.

Justification for Proposal

Provide reason to support your proposal based on the safety impact, enfforceability, cost effectiveness, or unique location conditions

Justification *

private streets and trail systems (turned into fire access roads) are not easily maintained which defeats the purpose of the requirement. Ensuring that fire apparatus access roads are available for use is accomplished by making them public streets.
